

Modern 2 Bedroom Apartment with Balcony

Property Description

"A Service apartments to those who want to unwind after a long day in an unfamiliar city. The apartment has a variety of rooms to accommodate the variety of guests we expect. The facility is designed so that a tourist family can live as comfortably as a single man visiting the city on business. One of the most significant benefits of this Serviced Apartment is that it has separate office rooms for formal business meetings and a drawing room where a family can invite friends and relatives who live in the city. Not to mention the one-call room service and the availability of an on-call doctor."
